

**Questions of Home Education Part II – The Child gets Knowledge
by Means of his Senses**

1. Show, from the behavior of a baby, that a child gets knowledge by means of his senses.

2. Characterize Nature's teaching.

3. Wherein lies the danger of over-pressure?

4. Why are object-lessons inefficient?

5. Why does a child learn most from *things*?

6. Give some examples showing that a sense of beauty comes from early contact with nature.

7. What does Dickens say on the subject of a child's observing powers?
